The Department of State acknowledges with appreciation the receipt of the Aide Memoire dated July 23, 1960 from the Legation of Latvia regarding the twentieth anniversary of the public statement by the Acting Secretary of State of non-recognition by the United States of the forcible incorporation of Latvia into the Soviet Union.

The people and Government of the United States continue to be deeply concerned about the fate of Latvia and look to the day when the Latvian people once again will be able to exercise their national right to establish political, economic, and cultural systems of their own choosing.
